

# X-CABLE

Feel X-DREi Xperience

The best  
upgrade for  
your audio system

## A FORTUNATE DISCOVERY

Combining technology bi-metal cable with the effective DREi. We use wires with separate nuclei of silver and copper, polarized and extreme purity, shielded externally, and Platinum & Rhodium plated connectors. Extreme quality.

When all corrected cable technical factors, you get an absolute neutrality in sound transmission, with accuracy and transparency.

X-CABLE is a passive cable with active DREi technology, which it will increase the performance of the audio system, will optimize the connection between the components and will offer an outstanding musicality, crystal clear sound with excellent opening and three-dimensionality. A level of detail and an overwhelming silence.

The total Synergy of system will be much more equilibrated, which include 5 selectable SYNERGY positions. Only for analog line.
